

PHOTO REVIEW

This column presents in pictorial form many of the more unusual radios, speakers, tubes, advertising, and other old radio-related items from our readers' collections. The photos are meant to help increase awareness of what's available in the radio collecting hobby. Send in any size photos from your collection. Photos must be sharp in detail, contain a single item, and preferably have a light-colored background. A short, descriptive paragraph **MUST** be included with each photo. Please note that receipt of photos is not acknowledged, publishing is not guaranteed, and photos are not returned.

Baldwin model 70 radio – this is really a console radio whose legs were removed at some time in the past. Large radio with 12" speaker and 7 tubes. Manufactured in 1930. Mike Katz, Seaford, NY

De Forest type DV3 tube – Shown with its original can packaging, this DV3 tube was used as a detector and amplifier. It is a triode circa 1924. Charlie Kapotes, St. Paul, MN
